

EZPIX Rules

1. Pick one team to win each week of the season beginning week 2
2. You may not choose the same team twice throughout the year.
3. Do your best to get your picks in as early as you can. Waiting till Sunday does not change whether your team will win or not. Please try not to call or email on the day of the game!
4. If you do NOT turn in a choice, you will be automatically given a 0-10 loss. (30 points) So, keep up with it and we won't have any problems.
5. Points are added up for the year. Points are the difference in the scores of your chosen games.
6. You're OUT after two losses and each one will count as TRIPLE (3X).
Example (10-17) = 21

Being undefeated does NOT rank you higher than someone with a loss. You're either in the game or out.

7. A tie will count as 0. Congratulations! Damn good Pick.
8. Winner's rankings will be determined first by how many weeks they survive and then by the lowest point total. Game is over when there is only 1 remaining player left or after the regular NFL season is over. If tied, money will be split.

Th th th...That's All Folks.

Go to www.coachwannabees.com and take the link to the game. Save it in your favorites.

Email me with your decision to play. drawdawg@gmail.com

Feel free to introduce any new players you may have talked to since last year.
